It's the easiest thing in the world for a man's wife to convince him that he ought not to work so hard during hot weather.

Why all this fuss about tight skirts? None of them is so tight that it prevents a woman from catching a man, if she is so disposed.

There is some discussion as to which is the hottest month of the year. In this part of the country it seems to be June, July and August.

If Old Noah was taking a little liquid refreshment while the ark was drifting around, the Conway Springs Star thinks he certainly was in that condition when he let that pair of chinch bugs out of the ark.

It is reported that the country will be "flooded with cheap beef from Argentina" under the new tarkf, Possibly the beef consumers ought to feel more alarmed than they do. To those who have been paying \$1.05 for a 4pound Sunday roast the assertion looks more like a promise than a

A sarcastic pastor in Preston suggests a plan whereby the girls who attend church in the evening can register their names in the church vestibule, so that the young men who are in the habit of lingering around the church door can see whether or not their best girl is present and thus set a troubled brain at rest.

Howard woman has told of a joke on one of her recent visitors, a lady from a near-by town. The guest took a bath in the bath room, and seeing a box of dutch cleanser behind the tub thought it was some sort of talcum powder and dusted it over her ample form after the bath. In about 14 seconds it took effect in a manner that reminded her of hot mustard, and she hollered fire. Her hostess rushed in and rinsed her off as quick ly as possible, but the joke was too good to keep.

Billy Sunday has just received \$10,-500 for saving souls at South Bend, Ind. This same amount of money put where it ought to be put-into the churches of South Bend-would have accomplished far more good, thinks the Independence Reporter. But people who scream with horror when asked to give a dollar to the local minister-the man who faithfully baptizes the babies, marries the sons and daughters and buries the beloved dead-will become so enamored of Billy Sunday's abuse that they will gladly part with their last cent to fill his already stuffed purse. This is a funny old world and among its other anomalies is the traveling evangelist who gets the coin.

CAPITOL CORRESPONDENCE

The writer spent two days last eek at the state penitentiary ansing. Warden Bodkin has taken hold like an old hand at the huela There will be a tightening up of discipline and an iasistance that more ush be put into the work of the verous departments.

The work of rebuilding the twine plant is now going forward rapidly and the new building will be comp d in a very short time. By next pring all the burned buildings will be replaced by new ones and all this will be done with very little expense left over for the next legislatu

lucing sufficient coal to supply the state institutions and there has been universal complaint on that account and large sums of money have had to be appropriated at every session of the legislature to buy coal for the institutions. The new Board of Correct tions and the warden are going to stop this expense by making the coal mines more productive. The new mine superintendent bas already suga rested important changes in the operation of the mine which will occomplish this purpose.

The farming operations are being planned on a larger scale than ever before and the herds of cattle and hogs are being rapidly increased so as to provide meat for the inmates, The Board of Corrections and the warden believe that they can make the state penitentiary almost self supporting in a year or two.

The story sent out from Leaven worth as to the wholesale displace. ment of guards and officers is utterly without foundation. Very few changes have been made at this institution; however, many changes will be made in the near future and the cry of "spoils" will not prevent the administration from displacing Republicans and putting competent' Democrats in their places.

They tell a good story on Major* W. L. Brown, Chairman of the Board of Corrections. In making up the Chautauqua program for the Kingman Chautauqua, Major Brown was asked to help and he insisted that the joint debate between the Hon. C. F. Scott and Henry Allen should be one of the numbers. The harmonizers are now accusing Brown of trying to take the "harm", out of harmony and Brown simply smiles when they threaten to have the governor remove him for pernicious political activity. S. T.
